Create a GPS to Success!

Problems are a part of life. If you know how to solve them, success will be on your side; if not, you will fail.

Problems are not the problem. If you don't know what the problem is, then you have a problem.

Knowing you have a problem is not the problem; if you don't try to solve the problem, then you have a problem.

Trying to solve the problem is not the problem; if you give up on solving the problem, then you have a problem.

You need to follow a GPS: Ask WHY to find the problem; and ask HOW to find the solution. Put the solution into action and never give in until you make things happen. Success will be on your side!
