Natural Meditation

Natural meditation is a mini-vacation:

Your mind can go wherever you want to go.

Depending on circumstance and your personal preference, you can go anywhere you want to go: A beautiful beach, or a mountain, a popular city (such as Rome or New York) or a rural countryside. You can also meet whomever you want; you will release stress and tension, and gain plenty of peaceful energy in the process.

You will feel relaxed, energetic, and peaceful.

Natural meditation creates inner power: Self-discipline to improve yourself.

Meditation is self-discipline. Intentionally visualize your thought in action. You can turn frustration into energy, turn crisis into opportunity, and turn negative into positive, which means you can control your own destiny. You will feel energetic and positive.

Natural Meditation 1-3

Close your eyes, intentionally visualize, and internally say to yourself:

“I am sitting on the ground. It is raining and cleaning up my body, mind, and spirit. Now, I feel great and fantastic!”

Enjoy the fruits of discipline in a mini-vacation to improve yourself; you will feel calm and energetic. *Continue...*

Intentionally visualize and internally say to yourself:

“I am sitting on fire: it is burning out all my negative fat! I feel so positive and energetic!”

Enjoy the fruits of discipline in a mini-vacation to improve yourself. You will feel fresh and energetic. *Continue...*

Intentionally visualize and internally say to yourself:

“I am sitting on ice, and it’s snowing. I discipline myself to build indomitable spirit! I feel I can do anything I set my mind to do!”

Enjoy the fruits of discipline in a mini-vacation to improve yourself. You start to feel strong: you can do anything you set your mind to do. *Continue...*

Natural Meditation 4-7

Intentionally visualize and internally say to yourself: **“I am at a beach. I enjoy walking and jogging in the sand, swimming, riding the waves and playing in the ocean, and watching the beautiful, huge ocean. I feel that huge and beautiful ocean in my heart! I feel my heart is bigger than the ocean.”**

Enjoy the fruits of discipline in a mini-vacation to release stress and recharge your energy. You will feel rich, energetic, and peaceful. *Continue...*

Intentionally visualize and internally say to yourself:

“I enjoy walking in wild nature and watching the beautiful scenery. I feel so relaxed and peaceful.”

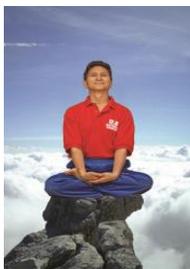

Enjoy the fruits of discipline in a mini-vacation to release stress and recharge your energy. You will feel calm, relaxed and energetic. *Continue...*

Intentionally visualize and internally say to yourself:

“I enjoy being massaged by a mountain waterfall. I feel so fresh and vigorous.”

Enjoy the fruits of discipline in a mini-vacation to improve yourself. You will feel you have so much energy. *Continue...*

Intentionally visualize and internally say to yourself:

“I climb up to the top of the highest mountain on earth! While standing on top of the mountain, I yell loudly, ‘YA-HOO!’ I am a mini-universe; I feel I can do anything I set my mind to do. I am a life champion!”

Enjoy the fruits of discipline in a mini-vacation to improve yourself. You will feel the whole world is yours! Now, you feel stress-free, calm, energetic, and you feel you can do anything you set your mind to do.

You can go anywhere all by yourself or with somebody: You can meet anybody you want to meet, and have a conversation with him or her. You can do anything you set your mind to do.

Life Meditation

Life meditation is a way of life: self-actualization through communication, motivation, and solutions for your life.

Life meditation helps you to build a positive attitude, sharper focus, and self-leadership, which will help you to become a strong leader.

Life meditation (1) Attitude

Maintain this position and internally say to yourself:

“The 5 Pillars of True Success will bring harmony and balance to create a successful future; therefore, I will be healthier, wiser, more confident, wealthier, and happier!”

“I will enjoy today with a smile (smile and laugh out loud a few times if you can, but if not, do so silently.)”

“I will have a quality day by doing my best and showing an attitude of gratitude.”

“Attitude is everything. I will do at least one good thing for my family, for my profession, for my community, and to make the world a better place to live. I feel great and fantastic! What a day! I will have a great day (with a smile)!” Now, extend your arms and then hug yourself (crossing your arms over your chest, showing a gesture of love.) Say to yourself: **“I love myself! I love my family! I love my profession, and I love people!”** Pump both fists over your head and say with passion: **“Attitude is everything; I feel great and fantastic! I am a people person; I am going to have the best day ever!”**

You will feel energetic physically, mentally, and morally, which will generate a positive attitude.

Life Meditation (2) Focus

Focus on your goals, plans, and whatever you are doing now, or whatever you will do, which will force you to create better results.

How?

Clean your mind by inhaling deeply and exhaling peacefully. While inhaling, intentionally visualize that you are receiving positive energy, and while exhaling, push out all negative energy. After you clean your mind, continue to use Power Breathing peacefully with a smile.

Focus on whatever you are doing, or you will do. For example, to practice a speech, imagine that you are in front of an audience and mentally rehearse what you will say with passion from beginning to finish. You will be inspired to believe in yourself deeply and feel confident and passionate about your next speech.

You will have a fun, meaningful, and successful speech. Use the same technique in whatever you do: Setting goals, making plans, practicing martial arts, or anything else. You will enjoy it more and have better results!

Meditation (3) Leadership

In life, we are all faced with making important decisions like choosing right or wrong, or deciding to quit or keep going. How do you decide? You must communicate within to find the answer.

How? Clean your mind by inhaling deeply and exhaling peacefully while Power Breathing.

Ask yourself if what you are doing is right or wrong or ask yourself what you want. You may not get the answer right away, but until you get the right answer, keep asking. Eventually, you will have the right answer. It will help you choose or decide the right thing to do.

Alternately, if you are faced with a crisis personally or professionally, you must find the solutions to your problems or overcome the obstacles. How?

First, clean your mind by inhaling deeply and exhaling peacefully while Power Breathing, and ask, "Why?" Dig out the answer to why and then proceed. Second, "How?" find how to handle the obstacle and come up with a solution. Third, execute the solution you found. You will turn crisis into opportunity.

With this technique you can handle any challenge -- personal or professional! You will be proud of yourself as a self-leader
